## Project Title: Twin Peaks Series Site

I think it would be best to make this site multiple pages, with buttons leading you to certain topics for more information. The content essentially divides itself and has enough variation and information to do so.

- **Home Page** - This will include an overview of the series and will give a little background to preface the info on the other pages.
- **Cast**
- **Season 1**
- **Season 2**
- **Season 3**
- **Filming**
- **Sources** - for photos, information, original Wikipedia page, etc.
